Student Life
Vaughn Worthen, term expires April 2017
Counseling & Career Center

Function

The BYU Faculty Advisory Council is the official voice of the faculty to the Administration.
The Council of itself may raise issues, consider issues raised by other faculty members, or respond to issues submitted to them by the Administration. The standing committees of the FAC may create a liaison with other university committees as needed. Although FAC members are elected by their colleagues, they serve on the Council as university citizens with a university viewpoint and not as college representatives.
