Nomination Packet Guidelines

A nomination packet consists of three parts:

1. Nomination Questions: This section consists of 5 questions relating to the candidates' qualifications for this specific award. These are to be answered by a member of the nominee's department or college. See guidelines in the Nomination Questions section of this form for more information.
2. An abbreviated CV to be attached to this packet. The CV should be no more than 5 pages, focusing on the areas most relevant to the award.
3. A Student Ratings Summary Report to be attached to this packet. The report should include all student comments for all courses taught in the previous 5 years.

Faculty members may not be nominated for more than one award in any given year, with the exception of the Karl G. Maeser Distinguished Faculty Lecturer.

Award Description

This award recognizes faculty members who have demonstrated sustained and clear superiority in teaching. Recipients of this award should provide instruction that is rigorous, inspiring, and based on high expectations of their students. The learning activities and teaching strategies they employ should be successfully directed toward students' comprehension, understanding, and reasoning.

One of these awards may be given to honor a faculty member who is doing innovative work to enhance learning through instructional design, pedagogical innovations, or student mentoring. Another may be given to a faculty member who demonstrates successful integration of experiential learning into the learning activities of their students. These experiences might include work in the studio, lab, or field; study abroad programs; service learning; meaningful internships; or undergraduate research.

To be eligible for this award, a faculty member must have CFS at BYU and hold the rank of Associate Professor or Professor*.

*The professional faculty ranks of Associate Teaching Professor, Associate Research Professor, Associate Clinical Professor, and Associate Librarian correspond to the professorial faculty rank of Associate Professor. The professional faculty ranks of Teaching Professor, Research Professor, Clinical Professor, and Senior Librarian correspond to the professorial faculty rank of Professor.

Nomination Questions

To be answered by a member of the nominee's department or college.

Please remember that although many awards are designed specifically to acknowledge meritorious performance in a single area of faculty responsibility, all nominees must meet or exceed department, college, and university standards for continuing faculty status (CFS) and for the academic rank they hold in all areas of faculty responsibility.

Please fill out the following three pages and answer all questions thoroughly. No additional documentation is needed for this portion of the application.

General Guidelines:

- Shorter is better, try to stay at or below the suggested word count for each question.
 - Carefully review the award description before writing your nomination.
 - Include quantity and quality standards so that reviewers from outside the discipline have context for evaluating the nominee's contributions.
 - Provide enough context that reviewers from across campus can understand and evaluate the nominee's worthiness for special recognition.
 - Heavier weight should be given to the "award criteria" question(s).
